

Implementation plan Finished

Study unit	Global Health (01464), 5.0
Implementation	CCV1721: 2/2017-2018 (08.01.2018 - 23.05.2018)
Type	HEALTH AND WELLBEING FROM GLOBAL PERSPECTIVE (V082)
Groups	Primary: CCV17SY Others :
Involved in the project	
Lecturers	
Number of participants	Minimum: 20 Maximum: 40
Enrolment period	27.11.2017 08:00 - 08.12.2017
Main timing for implementation	According to a schedule agreed by the parties
Applicability	For exchange students: Yes For elective studies: Yes Open UAS student: No Suitable for virtual UAS: Yes
Teachers	Ikonen Tuula (Teacher in charge)
Campus	Laurea Tikkurila
Main location for implementation	At the campus
Implementation method	Optima realization/student group, Project/venture/R&D Language: English Virtuality: 1 cr Integration of R&D: 1 cr
Implementation class	LbD based on international RDI project
Focus areas	Expertise in nursing and coping at home
Evaluation at the latest	15.06.2018 Storing of graded material ends.: 15.06.2019
Exam days	
Having completed the study unit the student is able to	The student is able to • recognize the impact on globalization on health • increase awareness of ethical knowledge, values, principles, legislation and recommendations in global health • analyze effective models in health promotion worldwide
Previous studies	
Learning objectives	In this study module students will be able to gain expertise on major contemporary issues and challenges of global health with an interprofessional perspective and social approach. It is open to students from all disciplines. Students will examine global disease burden and distribution, health determinants and disparities, health policy, and the challenges and outcomes of global health interventions. Key global health themes to be explored would include: communicable and non-communicable diseases, environmental health, child health, reproductive health and rights, and health among refugees and displaced population. Topics will be examined in relation to global interdependency, highlighting how both global and disparities and global health policy responses are shaped through global ties and tensions.
Contents	• The concept of Global health • Health for all 2020 (WHO), key health indicators, health determinants and disparities, overview for global and domestic diseases, communicable and non-communicable diseases, pandemics, public and private expenditure on health, the cost-effectiveness of health interventions • Ethical issues of health: human / patients' rights, values and global health, health services organized worldwide, immigration and refugee situation • Effective models in health promotion worldwide
