| <b>Osaamistavoitteet</b>                          | Students will be able to analyze effective innovative and technological models, good practices and projects in health and wellness promotion worldwide. Students are also able to recognize and practice different multidisciplinary ways and methods of wellness promotion in different context within social and health care. The different projects introduced during the course focus on ICT solutions and enhanced end-user engagement and are meant to promote the wellness and health of all, especially the aging population. Some of the key themes approached through the innovative use of ICT include user-friendly eServices, empowerment through storytelling, enhanced mobility or motility and social connectivity and quality of life. |
