Exam days	
Having completed the study unit the student is able to	The student is able to: • apply the requirements set by legislation, directives and guidelines concerning physical security • apply risk management methods to identify, evaluate and manage crime risks and vulnerabilities in facilities and operations • key operating principles of physical security solutions • create and develop physical security operational models, plans and guidelines as a part of facility management
Previous studies	Before enrolling to this study unit, you should have adequate competence level of security management, which you can acquire for example by completing study unit: A9484 Basics of Corporate Security and Risk Management 10 credits.
Other arrangements	Virtual studies open 15.01.2018 - 25.2.2018, ending with a pre-exam. Approved completion of that exam on schedule is required for participation in the project. The project will be conducted 7.3 or 12.3 at 13:00-20:00. Every student must attend one of these days. There will be a questionnaire regarding any obstacles, but the choice of day isn't up to the student, any obstacles for participation on one of the days must be well-founded. The work will continue after the project day by the student's own schedule. <i>NB! The project days are the same as in the study unit A9487 Emergency Preparedness. It is possible to complete the project for both on the same day!</i> The final presentation of the study unit will be held 18.4 at 9-11:30.
