Having completed the study unit the student is able to	
Previous studies	
Previous studies, more information	
Contents	The course looks at some of the underpinning theory and practice behind approaches to museum security, from situational crime prevention and risk management, to conservation measures and visitor and staff safety. This course, the first of its kind, is taught in collaboration with the Helsinki University experts and students from Helsinki Universities and is delivered through a combination of classroom time and site visits.
Other arrangements	The study unit will be carried out in co-operation with the Helsinki University and the nearby museums will be visited. The language of the study unit will be English.
