Opintojakson suoritettuaan opiskelija osaa	.The course aims to activate students' spoken communication skills in professional and everyday contexts, not forgetting the challenges and possibilities of the virtual world. Students will practice skills needed for communicating in various contexts, such as meetings, negotiations, small talk and giving presentations (both informative as well as persuasive). Nonverbal communication skills as well as intercultural communication skills will be discussed, too. Students will do tasks individually, in pairs and in teams. Some tasks will require planning, some will develop the students' spontaneous speaking skills.
