Learning objectives	KEY QUESTIONS What is professional social work based on Anti-Oppressive practice? What are the practical implications for multicultural work, crisis and mental health work and substance misuse work? Why should the principles of Anti-Oppressive practice be a professional priority? How do we develop supportive partnerships and networks in creating social change? What is the meaning of empowerment and how is it applied in client work?

Implementation plan Being edited

Contents	DESCRIPTION Anti-Oppressive client work introduces students to the foundations of anti-oppressive social work theory & practice and its application in working with different client groups. Students will develop a proficiency in the basics of crisis and mental health work, multicultural social work, and substance misuse work. This work is founded on the goals of client empowerment, partnership and facilitating social change.
Tutoring and communication	Individual and small group tutoring sessions are arranged at specific times to complement the class sessions and aid as opportunities for remedial help and project plan tutoring
