Having completed the study unit the student is able to	· analyze the effects that factors such as ethnicity, mental challenge, and addiction have on creating structural inequalities · reflect on the role power imbalances and oppression play in the process of social exclusion · identify the need for using culturally competent working methods with disempowered client groups · recognize the political nature of reflective social work practice in its aim to challenge social exclusion · internalise the theoretical framework of anti-oppressive social work practice · develop professional skills and client-centred methods required for crisis & mental health work, substance misuse work, and multicultural social work
Previous studies	Identity Development 10 CR., Anti-Oppressive Practice 10CR., Ethics in Social Services 5CR., Empowerment in Multicultural Counseling 10CR.
Previous studies, more information	G0081 Ethics in Social Services
Learning objectives	What is professional social work based on Anti-Oppressive practice? What are the practical implications for multicultural work, crisis and mental health work and substance misuse work? Why should the principles of Anti-Oppressive practice be a professional priority? How do we develop supportive partnerships and networks in creating social change? What is the meaning of empowerment and how is it applied in client work?

Implementation plan Being edited

Contents	Anti-Oppressive client work introduces students to the foundations of anti-oppressive social work theory & practice and its application in working with different client groups. Students will develop a proficiency in the basics of multicultural social work, and substance misuse work. This work is founded on the goals of client empowerment, partnership and facilitating social change.
