Having completed the study unit the student is able to	The student is able to • apply his or her knowledge and skills in nursing-related tasks to promote the well-being of clients/patients. • act as a member of a team in the planning, implementation and evaluation of client-oriented care.
Previous studies	
Previous studies, more information	Before medical or surgical nursing practice, the student must have completed the first practice placement-geriatric nursing, anatomy and physiology, medication + calculations. If the student haven't completed the above mentioned study units, the practice placement booking should be cancelled from JOBSTEP3 weeks before the start of practice at the latest. A student who haven't completed internal medicine and surgery online courses , can only be allowed to start practice if he or she has not yet exhausted the number of times allowed to re-do the course. The student must have attended medical nursing and perioperative theory lessons and workshops.
Contents	Practical training 7 weeks in medical or surgical ward in hospital or health centre. Training time week 43- 49. Teachers: Riikka Mulder, Emma Tamankag and Mika Alasto
Tutoring and communication	Practice placement guide and learning contract are in the Amm harj/ Clinic pract Tikkurila optima work space Practice placement facilitator will comment on the student's learning contract. The learning contract will be accepted by the facilitator, student's tutor and the student. Practice placement assignments should be done according to the instructions given by the facilitator. At the end of practice, the student will upload the sign learning contract to his or her ePortfolio in Optima.
Work strain	Attendance during practice placement info and reflection at the end of practice is compulsory. During the info session, the facilitator will go through details of practical issues that the student will need before, during and at the end of practice. Working hours; 1cr=27 hours The student will also give study unit feedback on the day of reflection, which is immediately after the end of practice.
