Having completed the study unit the student is able to	The student is able to • reflect, evaluate and develop himself/herself as an expert • describe his/her competences by using a portfolio and job application documents • recognize existing opportunities in the international labour market • identify the characteristics of working life and different work cultures • network with other actors in the field
Previous studies	
Previous studies, more information	It is advisable to complete the study unit during the second year of study.
Learning objectives	See the targets above. Additionally the studies develop reflective competence as you assess your own learning in order to achieve the learning outcomes when planning the career. Communication skills in the work community also improve when job search skills are analysed. Awareness of other general competences increases alongside assessment of one's own learning and goals.
Contents	During the study unit, you will make a career plan either as an employee or an entrepreneur and polish your job search skills as well as analyse your own networks. The study unit is based on guidance, and includes a discussion on the personal study unit plan with the tutor teacher in both semester.
Study material	The work space of study unit in Optima contains a collection of tips for supplementary material. You will be granted access to this work space at the beginning of the study unit.
Tutoring and communication	The purpose of the guidance is to make you think about different options, not to give complete solutions. As a student receiving guidance you are responsible for your own decisions and the direction of your career. The discussions on the study plan are conducted either in person or goal-oriented small groups. During the study unit, the tutor teacher will also give guidance on practices related to studying. Optima will be used for communication during the study unit so it is important to make sure that you give permission for all messages from the system. In order for the guidance, advise and communication in the study unit to work smoothly, please use the conversation area in

**Implementation plan Finished**

	Optima for all questions and matters that do not require personal communication with the lecturer. In personal matters, you can contact the lecturer by email or phone or arrange to meet her.
Evaluation criteria and methods	The study unit is assessed as a Pass or a Fail. A pass requires that you complete the assignments according to given timetable, demonstrating your familiarisation with the subject as well as your own thinking.
Work strain	Estimated distribution of working hours in the study unit (total on average 54 hrs) • Career planning and related guidance and event (15-20 hrs) • polishing up job search skill (15-20 hrs) • Building and utilising networks (8 hrs) • Discussions on the personal study plan and preparation for them (4 hrs) • Other participation in guidance activities (5hrs)
Other arrangements	The implementation plan will be specified before the beginning of the studies. It is useful to take advantage of the different events not listed in the implementation schedules when processing matters. The Network to Get Work event and the Rekryfestarit recruitment event in Hyvinkää will take place in January of February 2017.
