

Implementation plan Finished

Study unit	Intensive Care Nursing (V0157), 5.0
Implementation	CCV1621: 2/2016-2017 (09.01.2017 - 20.06.2017)
Type	CLINICAL NURSING (V081)
Groups	Primary: CCV16SY Others :
Involved in the project	
Lecturers	
Number of participants	Minimum: Maximum:
Enrolment period	28.11.2016 08:00 - 01.01.2017
Main timing for implementation	On working days during daytime
Applicability	For exchange students: Yes For elective studies: Yes Open UAS student: No Suitable for virtual UAS: Yes
Teachers	Mulder Riikka (Teacher in charge), Alastalo Mika (Other teacher)
Campus	Laurea Tikkurila
Main location for implementation	At the campus
Implementation method	Optima realization/student group Language: English Virtuality: 2 cr Integration of R&D: 0 cr
Implementation class	LbD supporting knowledge and skills development
Focus areas	Expertise in nursing and coping at home
Evaluation at the latest	20.07.2017 Storing of graded material ends.: 20.06.2018
Exam days	
Having completed the study unit the student is able to	• practise in a patient representative manner in intensive care nursing • apply concepts of intensive care nursing fluently and critically • maintain patient's vital functions during intensive care • define "a status" of intensive care patient and perform intensive care nursing by 1) recognizing the changes and needs, 2) planning and performing IC and ICN interventions and 3) assessing the outcomes concerning IC patient's: - tissue perfusion - heart rhythm and cardiac arrhythmias - ventilation and oxygenation - elimination - homeostasis and fluid balance - patient's nutrition - skin condition - sleep pattern and ability to rest - movement - interaction and communication

Implementation plan Finished

	- pain and pain management - anxiety - exhaustion - fear - and family members' emotional reactions to intensive care • perform intensive care nursing interventions as a member in multiprofessional ICU team • perform safe intensive care nursing • support the integrity of intensive care patients and their families when encountering the patients and their families • critically implement international and national evidence based interventions, principles, programs and theories in intensive care nursing • apply advanced and multidisciplinary evidence based knowledge in intensive care nursing • perform structured documentation in intensive care nursing to facilitate the continuity of the care • critically assess the central interventions, principles, programs and theories in intensive care nursing • facilitate professional development of his/her own or members' of intensive care nursing team • communicate both verbally and literally to intensive care and nursing professionals, patients and their families, and to the public audiences
Previous studies	
Previous studies, more information	Suitable for Nursing students / Public Health Nursing students only. Prior studies: • All 1st year nursing studies completed • Acute Care nursing R0065 or equivalent study unit participated • Infusions and transfusion therapy or equivalent studies participated • At least one clinical placement in hospital environment completed
Study material	Study material will be provided during the study unit.
